

## 5 Fun Facts About Author Robinne Weiss

1. I used to teach with a 2.5-metre long Burmese python wrapped around my body.
2. I keep a collection of interesting beach rocks on my desk and use them as touchstones for writing.
3. My favourite insects are weevils--a family of beetles with long snouts and cute little elbowed antennae. They play dead when they're frightened, which I find endearing.
4. I make most of my own clothing...everything except socks. I'm terrible at knitting socks.
5. I once delivered two goat kids in the middle of a dinner party.
